

Swapnil Mandekar

Aspiring AI/ML Engineer

Pune, Maharashtra | swapnilavinashmandekar@gmail.com | [+91-9604599027](tel:+91-9604599027)

Portfolio | LinkedIn | GitHub | LeetCode

PROFESSIONAL SUMMARY

Computer Science (Artificial Intelligence & Machine Learning) student with hands-on experience in AI/ML, computer vision, NLP, and full-stack development. Skilled in Python, React, Flask, Node.js, SQL, OpenCV, deep learning, Generative AI, and DSA, with experience building intelligent applications and scalable software solutions.

EDUCATION

B.Tech in Computer Science (Artificial Intelligence & Machine Learning)

2024 - 2028

Vishwakarma Institute of Technology, Pune | CGPA: 9.18 / 10.0

TECHNICAL SKILLS

Languages: C, C++, Java, Python, SQL, JavaScript, TypeScript

AI/ML: Machine Learning, Deep Learning, Computer Vision, CNN, ResNet18, MobileNetV2, NLP, Generative AI, Multimodal AI, Transfer Learning

Data: NumPy, Pandas, OpenCV, Data Preprocessing, Feature Engineering, Data Visualization, SBERT

Full-Stack: React.js, Vite, Flask, Node.js, Express.js, REST APIs, HTML, CSS, Firebase, MySQL, Supabase

Deployment & Tools: Git, GitHub, Postman, Vercel, Render, Firebase, Gemini AI

PROFESSIONAL EXPERIENCE

AI/ML Research Intern - IEEE Computational Intelligence Society (CIS), Pune Section

June 2026 - July 2026

Pune, India

- Developed an AI-powered Answer Sheet Evaluation System using NLP, machine learning, semantic similarity, and automated scoring techniques.
- Implemented semantic similarity analysis to evaluate answer quality and generate automated scores and structured feedback.
- Contributed to improving the efficiency, consistency, and scalability of educational assessment workflows.

PROJECTS

Mynukkad - AI & Blockchain-Based Political Accountability Platform

2026 - Present

Industry Problem Statement - Digital Governance & Political Accountability

React.js, TypeScript, Python, FastAPI, NLP, LLMs, Blockchain, PostgreSQL

- Developing an AI-powered platform for manifesto promise extraction, parliamentary activity tracking, promise-to-execution mapping, and representative performance scoring.
- Implementing NLP-based analysis and blockchain-backed verification for tamper-resistant accountability records, supporting evidence, and transparent public dashboards.

Edulytics - AI-Powered Automated Answer Evaluation System

June 2026 - September 2026

React, TypeScript, Node.js, Express, SBERT, Supabase

- Developed an AI-powered answer evaluation platform integrating OCR, NLP, Gemini AI, and SBERT for automated answer extraction, semantic analysis, and scoring.
- Engineered end-to-end evaluation workflows including AI-assisted answer-key generation, rubric-based assessment, automated scoring, confidence scores, and personalized feedback.

PlantGuard AI - Plant Disease Detection & Smart Farming Assistant

February 2026 - May 2026

React, Vite, Flask, Python, CNN, ResNet18, MobileNetV2

- Developed a deep learning-based web application for plant disease detection using CNN, ResNet18, and MobileNetV2 models.
- Implemented disease diagnosis, soil analysis, irrigation guidance, multilingual voice assistance, and automated PDF report generation.

TatvaAI - Multimodal News & Video Analysis Platform

September 2025 - December 2025

Python, Flask, Node.js, NLP, Deep Learning

- Developed a multimodal AI platform for analyzing news articles and videos using NLP, speech processing, and deep learning techniques.
- Integrated speech-to-text, NLP-based summarization, and transformer-based fake-news detection for automated content analysis.

RESEARCH PUBLICATIONS

TatvaAI: News, Insight & Beyond - Accepted

ETLTC 2027 - The University of Aizu, Japan

Plant Nutrient Deficiency Detection Using Deep Learning

Accepted at ETLTC 2027, Japan and ICECCME 2026, Bali; published at ISICVA 2026, Kolkata.

CERTIFICATIONS & ACHIEVEMENTS

- Finalist in the Google AI Agentic Hackathon.
- Solved 250+ problems on LeetCode and participated in competitive coding events on GFG.
- Earned certifications in AI/ML and software development domains.
- Certificates: [View All Certificates](#)
